ABOUT THE BOOK

Kashmir is famous not only for its charming landscape but also for its glorious past. Its recorded history testifies to its grand traditions and rich cultural heritage. Kashmir has always been a spot of attraction for others, and much has been written on it especially after the developments of 1947 and 1989.

Though a few bibliographies of general nature have been compiled on Kashmir, the present work is, however, a pioneering effort in this field. It is unique in the sense that it offers a good deal of annotations on various aspects of the history and politics of three regions of the State viz. Jammu, Kashmir and Ladakh.

The bibliography is selective in nature and indexes 758 books, periodicals and newspaper articles important from the research point of view. In addition to author and subject indexes, it contains a brief introduction to the history and politics of the State so as to give the readers a fair idea of the topic. The book will prove useful to the students, teachers and researchers and thus it will go a long way in facilitating the work of future research on Jammu and Kashmir.

PREFACE TO THE SECOND EDITION

The first edition of this bibliography was published in 1986. Since then much has been written on Kashmir especially after the developments of 1989 when the Kashmiri youth took up arms against the Govt. and the Kashmir issue received a new dimension. In addition to the books and Journals, eminent columnists have written on various aspects of Kashmir in the leading newspapers. Every effort has, therefore, been made to include relevant portion of this material, deemed essential from the research point of view. While going through the material available in the History Department of Kashmir University, 14 dissertations have been found of great historical importance and thus included in this bibliography.

The present edition consists of 758 documents, 490 books 193 Journals and 75 newspaper articles. As stated earlier, the bibliography is confined to the material available in English only. However, 20 books in Urdu have been included in this edition in view of their historical value. Though the period covered in this bibliography is upto 1994 however, some books published in the beginning of 1995 have also been included. In order to understand and to make the best use of the bibliography, the users are advised to go through the preface of the first edition which has been reproduced in this edition.

Praise be to Almighty God who gave me the courage to work on this project despite my bad health throughout 1994.

I am thankful to the staff of the Libraries I visited for compilation of this bibliography, in particular the Kashmir University library and the Public Library staff for their whole-hearted cooperation. My thanks are due to Mr. Khazir Mohammad Mir for typing the manuscript with utmost care. My wife, daughter Ruhi, sons Tariq and Mubashir Wani, deserve my special thanks for their assistance in the preparation and the arrangement of the indexes.

Finally, I would like to thank Mr. Abdul Rasheed for his help in getting this book printed within a short time.

It may not be out of place to mention here that the compiler's aim has been to prepare this work for those interested in research in the area of the history and politics of Kashmir. What has been stated and recorded in the bibliography, are the views of the authors and in no way reflective of the compiler's views. The job has been done purely in the spirit of a documentalist. The compiler would, however, welcome the suggestions of the readers and the authors for improvement of the bibliography.

PREFACE TO THE FIRST EDITION

With the advent of Printing Press during the middle of 15th century substantial quantity of literature in various forms became available to the readers. Education spread like anything and side by side libraries began to develop. Towards the end of 15th century a technique of producing the descriptive lists of Publishing records was also developed. John Tritheim, considered to be the father of bibliography, compiled the first-ever bibliography in 1494 A.D.

Since then this subject received attention of librarians and experts and the bibliographies of various types have been compiled from time to time. The present century has virtually witnessed unprecedented growth of literature on all subjects, the need to compile more and more bibliographies has become essential from the research point of view. The art of bibliographical compilations has therefore, received great impetus. An annotated bibliography which makes characterisation of a book or a periodical article can serve the purpose of research scholars fully than a general bibliography.

Kashmir has enjoyed great fame for its glorious past as a major centre of learning, for its rich cultural heritage and for charming landscape. It has always been a spot of attraction for others. Therefore, much has been written on Kashmir in books, periodicals and newspapers. Since partition of the country in 1947, Kashmir has become a bone of contention between India and Pakistan. Wars were fought between the two countries and Kashmir came up for discussions at international forums. In the wake of Kashmir's publicity, considerable literature has been brought out on the various aspects of the State. This has led to more and more research on Kashmir's past as well as present. Though a few bibliographies have been compiled on Kashmir, the present attempt is however, the first of its kind. It has been compiled with a view to fulfil the needs of research scholars on Kashmir history and politics.

SCOPE

A bibliography can never claim to be comprehensive. This has been realised even by the experts in this field. Since it is not possible to include everything published on Kashmir, the compiler of the present attempt had to be selective, limiting his work to the published material on the historical and political events from 1846 to 1983. The starting point was located in the year 1846 for its tremendous political significance as it was the year when Kashmir was sold by the British to Raja Gulab Singh through the infamous sale deed known as the Treaty of Amritsar.

The bibliography, as mentioned earlier, is selective in nature and confined to published material in the form of books and journals only.

The entire material is available in the libraries of Kashmir. In fact some of the libraries viz Kashmir University library, Research library and Public library, Srinagar, are rich in material on Kashmir from the research point of view.

The bibliography contains 482 entries, 308 books and 174 periodicals. The titles available in Persian and Urdu have been included and the abstract translated into English. In fact some titles of such material on Kashmir history are valuable and thus included. The number of such books does not exceed 42. In the case of journals, material available in English only has been included. However, a some special numbers brought out in Urdu by the Academy of Art, Culture and Languages, Srinagar, on the historians and rulers of Kashmir have ben included as this material was deemed essential in view of the needs of research scholars.

The bibliography has been divided into three parts. Part I contains a brief introduction to Kashmir history and politics. This has been done to give the readers a fair idea of the topic. This part also contains lists of abbreviations used for libraries, journals and other terms. Part II comprises the bibliography of books, and periodical articles. All the entries in the bibliography are serially numbered and contain full bibliographical information followed by annotations. For preparation of the entries I.S.I. specifications for the bibliographical references have also been taken into consideration. Effort has been made to provide factual and concise annotations in easy and understandable language.

ARRANGEMENT

All the books and periodical articles have been classified by Deway Decimal Classification—18th edition 1971 and arranged in classified order. The entries have been arranged in the alphabetical order by author or title within a specific subject. For subject headings, Sears list of subject headings, 11th edition, 1977 has been used. However, some changes have been made in the subject headings wherever it was found that Search list would not serve the purpose of the users. For instance under the heading of Politics and Government, subjects have been formed in the chronological order to fulfill the requirements of the scholars who want to make a study of the various historical developments of Kashmir.

INDEXES

The bibliography contains author and subject indexes. Both the indexes are arranged in the alphabetical order with an entry number/ numbers against each. Wherever necessary, 'see' and 'see also' references have been provided to facilitate quick consultation of the relevant topic.

Kashmir History and Politics ; An Introduction

Land and the People

Generally known as Kashmir, the State of Jammu and Kashmir comprises three provinces of Jammu, Kashmir and Ladakh. The modern State of Jammu and Kashmir was founded by Maharaja Gulab Singh in 1846 as a result of the Treaty of Amritsar between him and the then British Government of India. The State covers an area of 1,38,942 sq. kms and commands an important strategic position among the countries of the region. According to 1981 census the total population of Jammu and Kashmir was 59,54,010. In 1991 no official census was conducted in the State. However, it is presumed that the population of J & K has exceeded 80 lakhs. Geographically the present State of Jammu and Kashmir is divided into three regions.

Jammu

Jammu is the Winter capital of the State. It is said that it was originally founded by Raja Jambulochan who lived in 14th century B.C. Jammu province is divided into 6 districts and covers an area of 26,293 sq. kms. The people of Jammu are usually known as Dogras. They follow different religions and speak Dogri language.

Kashmir Valley

The Valley of Kashmir is famous for its beauty and has been rightly described as the paradise on earth. Srinagar is the Summer capital of the State which is said to have been founded by Ashoka, the Great. Divided into six districts, the Kashmir Valley covers an area of 15,948 sq. kms. About eighty per cent people of the Valley are Muslims. Generally people speak Kashmiri language, a mixture of Sanskrit, Persian and other languages.

Ladakh

Ladakh is the largest district not only in the State but in the whole country and covers an area of 96,701 sq. kms. It has an important strategic position and is bounded in North and East by China and in the North-West by Gilgit and Skardu, now under

Pakistan. Ladakh is divided into two districts-Leh and Kargil. It has a unique position for having preserved Buddhism and its rich cultural heritage.

History

It is an admitted fact that Kashmir has had a glorious past. Kashmir has remained a major centre of learning for centuries together. The scholars from different countries used to visit Kashmir to complete their studies in the field of art, literature, philosophy and religion. Kashmir history has rightly been described as more charming than its landscape. In fact the people of Kashmir can really feel proud that their ancestors have recorded past events in the right historical traditions. Among the past historical works, the Raja tarangini of Kalhana occupies a central place. It has served as a source for the later historians. Kalhana completed Rajatarangini between 1148 and 1149 A.D. It starts from ancient times and goes upto the reign of Raja Sangram Deva in 1006 A.D. The chronicle was continued by Jonaraja, Srivara, Prajayabhata and Shuka and was brought upto 1586 A.D., when Mughal emperor Akbar annexed Kashmir. From Medieval to modern period, many historians namely Malik Haider Choudra, Kh. Mohammad Azam Dedmari, Mulla Nadri, Pir Hassan Shah, Fauq, Bamzai etc. brought the chronicle upto present times.

Muslim Rule in Kashmir (1320 to 1819 A.D.)

Muslim rule in Kashmir started from 1320 A.D. with Rinchan as the first Muslim ruler. After Rinchan's death, Shah Mir occupied the throne of Kashmir and began to rule as the first Sultan. Shah Mir dynasty ruled over Kashmir for more than two hundred years. The famous Sultans of this dynasty are Sultan Zain-ul-Abidin and Sultan Shahab-ud-Din.

Kashmir came under the rule of Chak dynasty in 1560. Chak rule lasted for 26 years only and in 1586 Akbar's army occupied Kashmir. In 1752 Mughal rule came to an end and Afghan rule began in Kashmir.

Kashmir under Sikh and Dogra Rule (1819 to 1947 A.D.)

Afghan rule in Kashmir lasted 67 years. This rule has been described as the worst. In 1819 Sikh army of Ranjit Singh occupied Kashmir. Till 1846 Sikh Governors ruled Kashmir. Sikh rule has also brought misery for the people of Kashmir.

Kashmir came under the Dogra rule in 1846 as a result of the Treaty of Amritsar of March 1846. In fact Kashmiris were sold by the Britishers to Raja Gulab Singh for Rs. 75 Lakhs. The Dogra rule in Kashmir lasted till 1947.

Freedom Movement in Kashmir (1931-1947)

The freedom struggle was launched by the people of Kashmir in 1931 under the leadership of Sheikh Mohammad Abdullah. In 1932 Muslim Conference was established and in 1939 it was converted into National Conference so as to give the freedom movement a national outlook. In 1946 National Conference raised the slogan of Quit Kashmir and challenged the validity of the Treaty of Amritsar. Quit Kashmir movement continued till 1947 when the British Govt. published a plan for partition of the country.

Kashmir Politics

During 1947 many developments took place in Kashmir. On 15 August 1947, British Govt. transferred power to the two dominions of India and Pakistan. Maharaja Hari Singh of Kashmir watched the situation for some time and finally decided to accede to India. During this time there was tribal invasion on Kashmir followed by the Indo-Pak conflict.

In January 1948, Govt. of India brought the issue before the U.N. A number of resolutions were passed by the U.N. Security Council between 1948 and 1965. However, the World body failed to find an amicable solution of Kashmir problem. The direct negotiations between India and Pakistan during 1962, 1963 and 1966 also failed to provide a solution to this problem. After 1971 Indo-Pak war an agreement was signed at Simla in July 1972 by the Prime Minister of India and President of Pakistan in which it was agreed that Kashmir issue will be solved bilaterally through peaceful negotiations.

Internal Political Developments (1947-1994)

The internal politics of Kashmir since 1947 kept on taking a new turn from time to time. After Kashmir's accession of 1947, Sheikh Mohammad Abdullah was appointed as the Chief Emergency Administrator by Maharaja Hari Singh. In March, 1948 he became Prime Minister of J & K State. His government introduced a number of reforms in the State. However, his government was dismissed and Sheikh Mohammad Abdullah was arrested on August 9, 1953 by the Sadri-Reyasat. Bakshi Ghulam Mohammad was

in 1983 and he was arrested. He was released again against his will.

Mr. Shamshad was arrested in 1983 and he was released again in 1985. During Shamshad's release, he was stolen from the prison and led to the premises of the Central Reserve Police Force (CRPF) in Srinagar where he was registered as a CRPF soldier.

The State of Jammu and Kashmir has been under the control of the Indian Government since 1947. The Indian Government has been trying to impose its rule over the state through various means, including military force, economic policies, and political manipulation. The people of Jammu and Kashmir have been fighting for their right to self-determination and independence from India.

was imposed. On September 6, 1986 Presidents rule under Article 356 was imposed in J & K after the expiry of the Governor's rule.

In the beginning of November, 1986 an accord was reached between Prime Minister Rajiv Gandhi and Dr. Farooq Abdullah, with the result a coalition Govt. of National Conference (F) and Congress(I) headed by Dr. Farooq Abdullah was sworn-in on Nov. 7, 1986. In March 1987 elections to the State Assembly were held. There is a general belief that these elections were rigged. NC(F) and Congress (I) contested the election together and won by the two-thirds majority. During middle of 1989 a new development took place when the Kashmiri youth took up arms against the Govt. The movement is still going on and so far thousands of people have died and property worth crores of rupees destroyed.

On January 18, 1990 the Farooq Abdullah Govt. resigned and the Governor's rule was again imposed in J & K. The State Assembly was placed under suspended animation by the then Governor Mr. Jagmohan. On Feb. 19, 1990 the President's rule was imposed in the State. Since then it is being extended after every six months which is unprecedented in the post 1947 history of the State.

appointed Prime Minister of Jammu and Kashmir. He continued till October 1963. An outstanding achievement of Bakshi's Govt. was adoption of J & K Constitution in 1957 and confirmation of State's accession to the Indian Union by the State Legislature. Sheikh Mohammad Abdulla was released in January, 1958 and again arrested in April 1958. A case of conspiracy was framed against him and he was under trial till his release in April, 1964.

Mr. Shams-ud-Din was elected Bakshi's successor in October 1963 and he continued as Prime Minister till February 1964. During Shams-ud-Din's rule the Holy Relic of Prophet Mohammad was stolen from Hazratbal Mosque on December 27, 1963 and this led to the people's agitation throughout the State till the restoration of the Relic in January 1964. On February 29, 1964 Shams-ud-Din was replaced by G.M. Sadiq.

The Sadiq Govt. remained in office till his death on December 11, 1971. The main achievements of Sadiq Govt. were release of Sheikh Abdullah in April 1964, restoration of democratic rights in the State and change in the nomenclature of Sadri-Reyasat and Prime Minister into Governor and Chief Minister respectively. After Sadiq's death, Syed Mir Qasim was elected Chief Minister of J & K State.

During Mir Qasim's reign a dialogue was initiated between Indian Prime Minister Indira Gandhi and Sheikh Mohammad Abdullah. This resulted in the final accord known as the Kashmir Accord of February 1975. The Kashmir Accord paved the way for Sheikh's return to power on February 25, 1975. Sheikh Mohammad Abdullah continued Chief Minister of the State till his death on 8th September, 1982. On September 9, 1982 Dr. Farooq Abdullah was unanimously elected as Chief Minister of Jammu and Kashmir State. In June 1983, elections to the State Assembly were held and the National Conference under the leadership of Dr. Farooq Abdullah came to power.

On July 2, 1984 Dr. Farooq Abdullah's Govt. was dismissed by the Governor Mr. Jagmohan due to defections in the National Conference. Mr. G.M. Shah was appointed Chief Minister of the State who was backed by Congress(I) in the Assembly. However, the Congress withdrew its support to Mr. Shah and the Governor dissolved the Council of Ministers headed by Mr. G.M. Shah on March 7, 1986 under Section 92 of the State Constitution. The State Assembly was kept in animated suspension and the Governor's rule

was imposed. On September 6, 1986 Presidents rule under Article 356 was imposed in J & K after the expiry of the Governor's rule.

In the beginning of November, 1986 an accord was reached between Prime Minister Rajiv Gandhi and Dr. Farooq Abdullah, with the result a coalition Govt. of National Conference (F) and Congress(I) headed by Dr. Farooq Abdullah was sworn-in on Nov. 7, 1986.
